Formly Team - Interview Y

This document records the team's interview with anonymized participant Y. Responses are lightly edited for spelling and clarity from the interview notes.

Behavior tags describe actions Y reported. Opinion tags describe Y's judgments or preferences. Both come from Y's account, not direct observation.

1. Screen (1 minute)

Interviewer: What do you currently use to help you check or improve your exercise form?

Y - Behavior: Y reported using the QR codes on gym machines when unsure how to use a machine or perform an exercise with proper form.

2. Last time story (4 minutes)

Interviewer: Can you walk me through the last time you checked whether you were doing an exercise correctly?

Y - Behavior (reported habit): Y said they look in the mirror and focus on exercise cues. When there is no mirror, they focus on the muscle they are trying to work. No specific last-time event was provided.

3. Alternatives (3 minutes)

Interviewer: What other methods have you tried to check your form, and why did you stop using them?

Y - Behavior: Y reported that they stopped relying on YouTube videos.

Y - Opinion: Y said online creators often contradict each other, making it confusing to tell which advice is correct.

4. Switching story (4 minutes)

Interviewer: What made you start using the QR codes on the machines? Are you still using them? If not, why?

Y - Behavior: Y started using the gym-machine QR codes and gradually stopped using them.

Y - Opinion: Y assumed instructions provided by the equipment manufacturer were correct and said the codes were helpful at the beginning.

5. Money and time (2 minutes)

Interviewer: How much time or money have you actually spent on checking or improving your form recently?

Y - Behavior: Y reported spending around $800 trying different personal trainers, then deciding to train independently. The spending time period was not specified.

6. Close (1 minute)

Interviewer: Is there someone you know who has tried a similar method or something different?

Y - Secondhand report: Y said a friend paid $700 for one personal training session to prepare to compete more seriously. This amount was not independently verified.

Y - Opinion: Y thought a more efficient and affordable app would be useful for people seeking help with their form.
